Perceive information

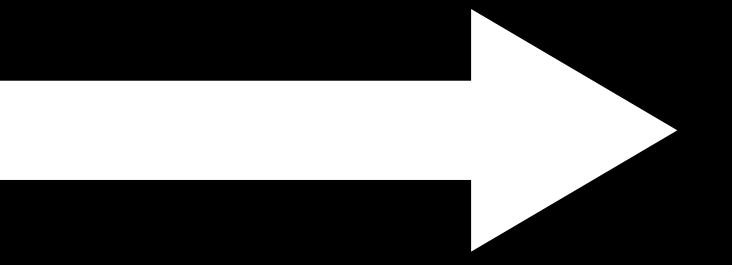

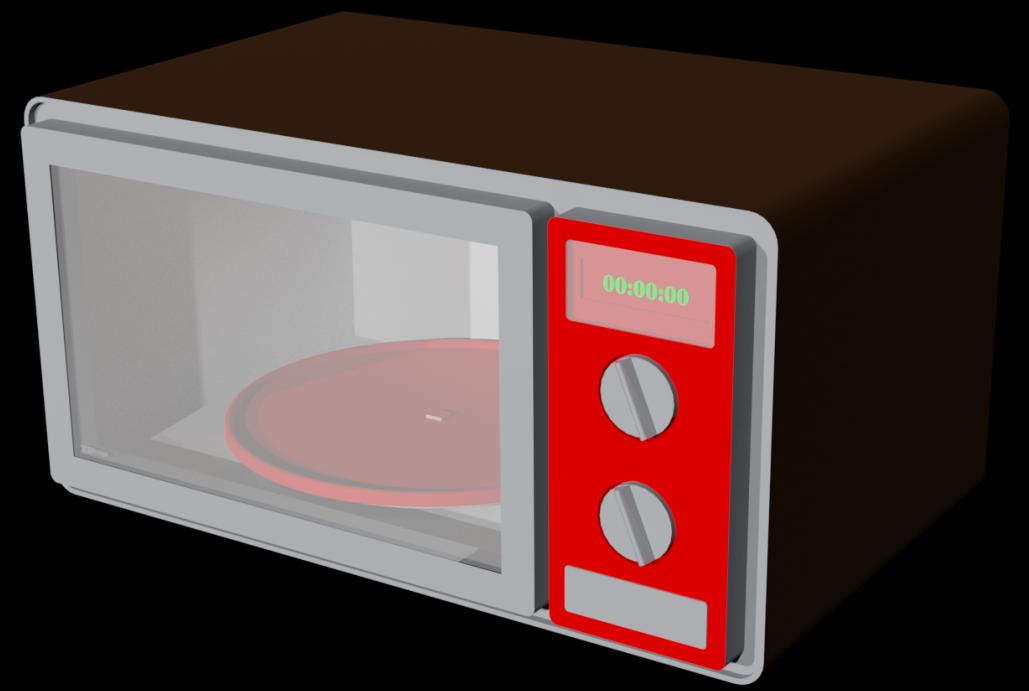

## Intelligent Agent

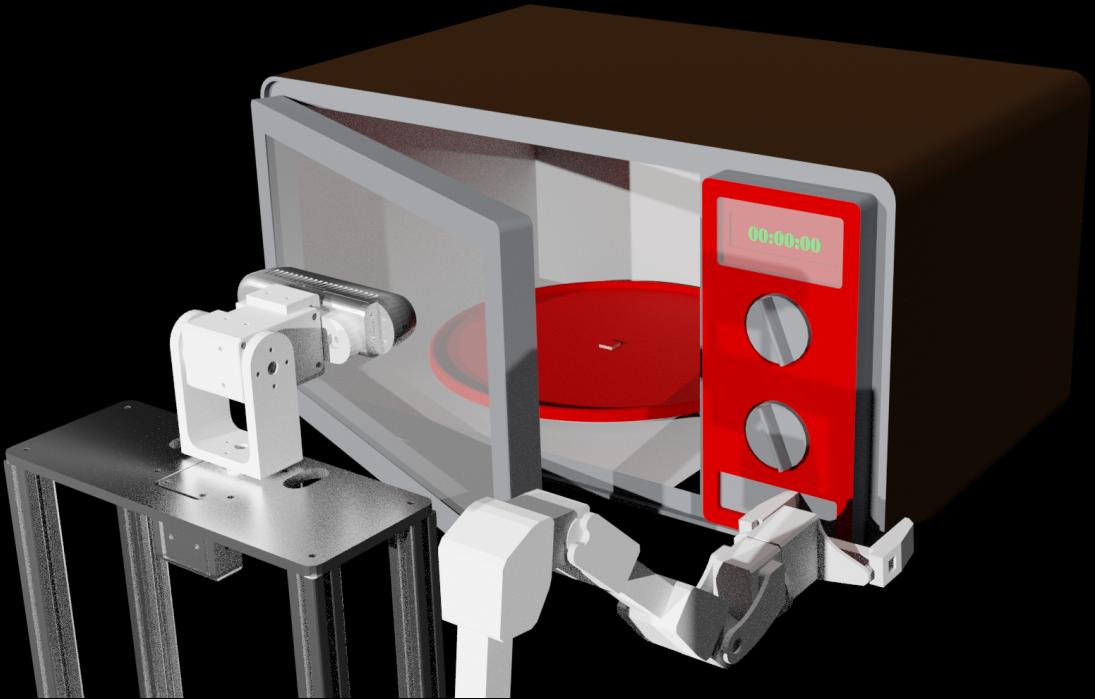

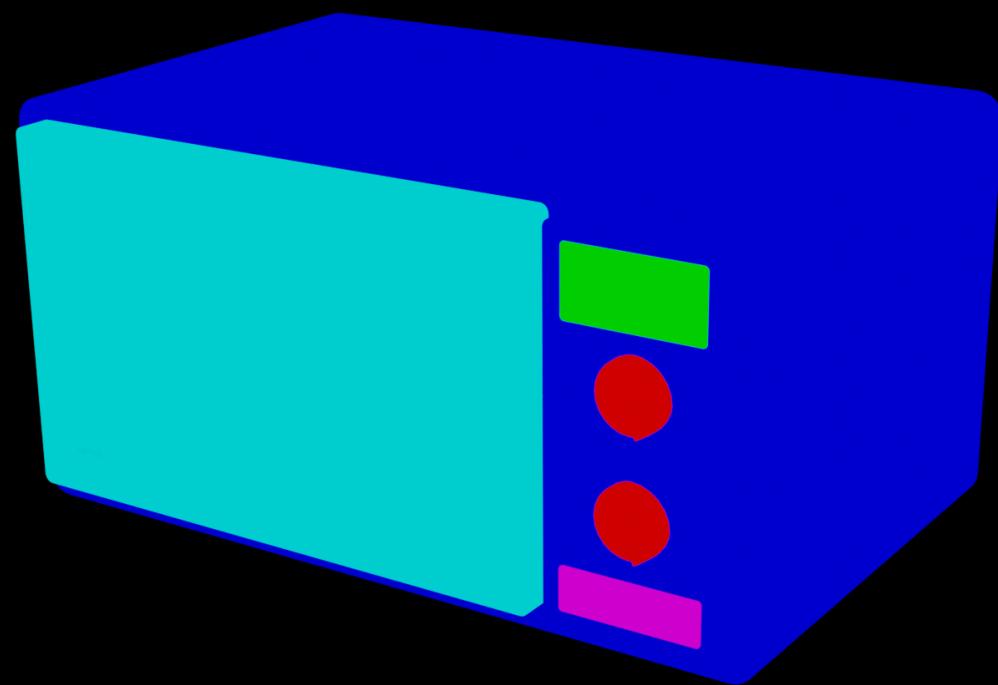

Adapt behavior

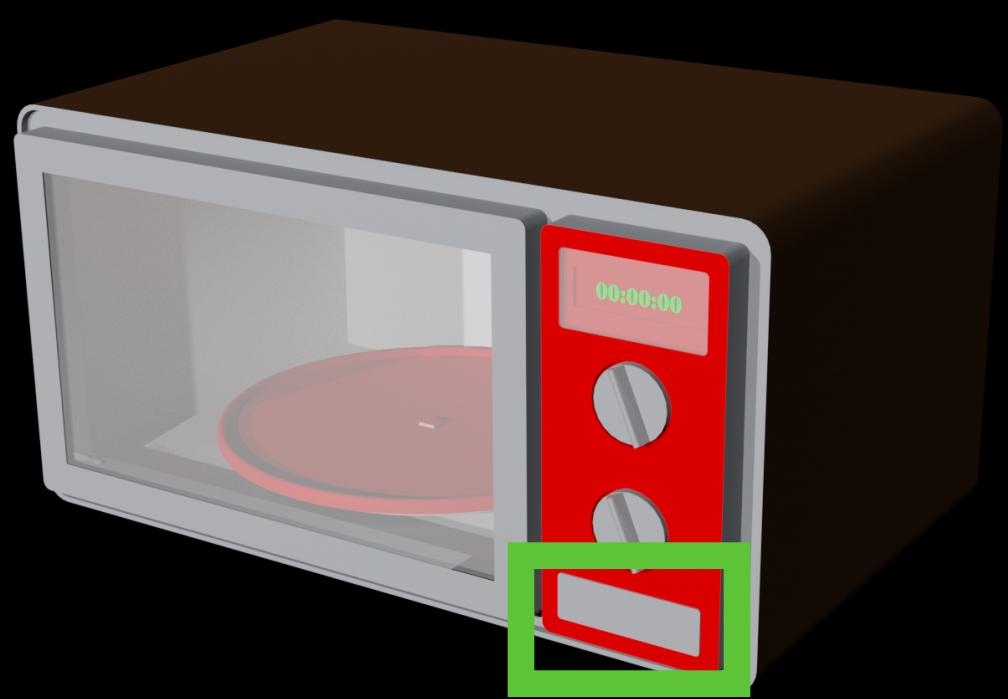

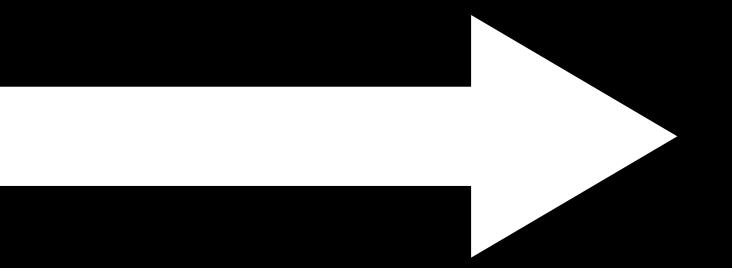

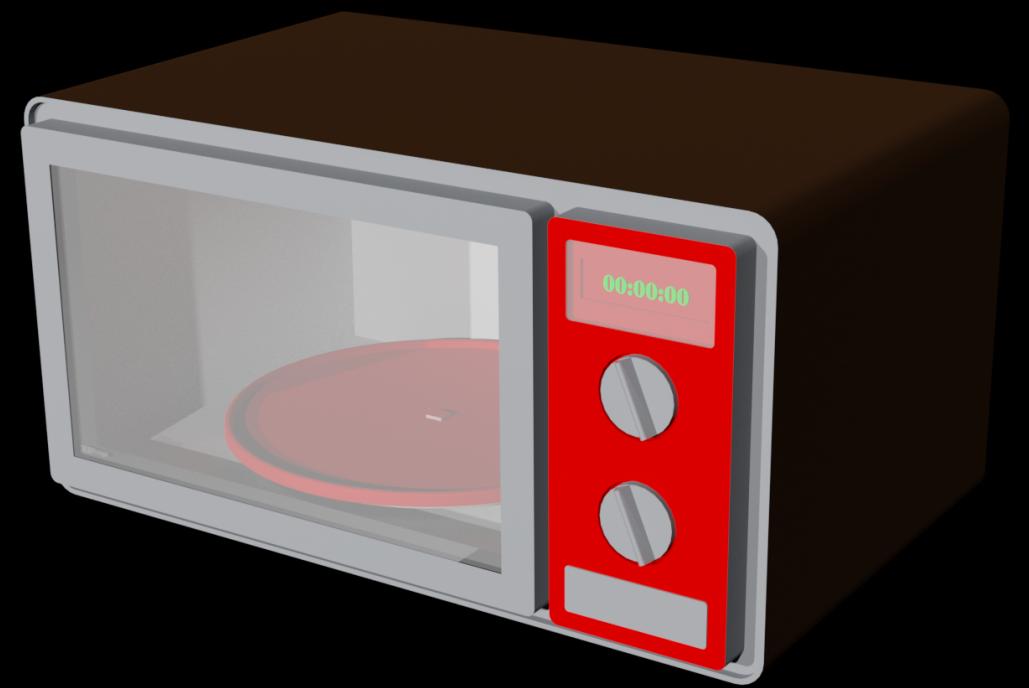

**Perceive information**  
**Computer vision**

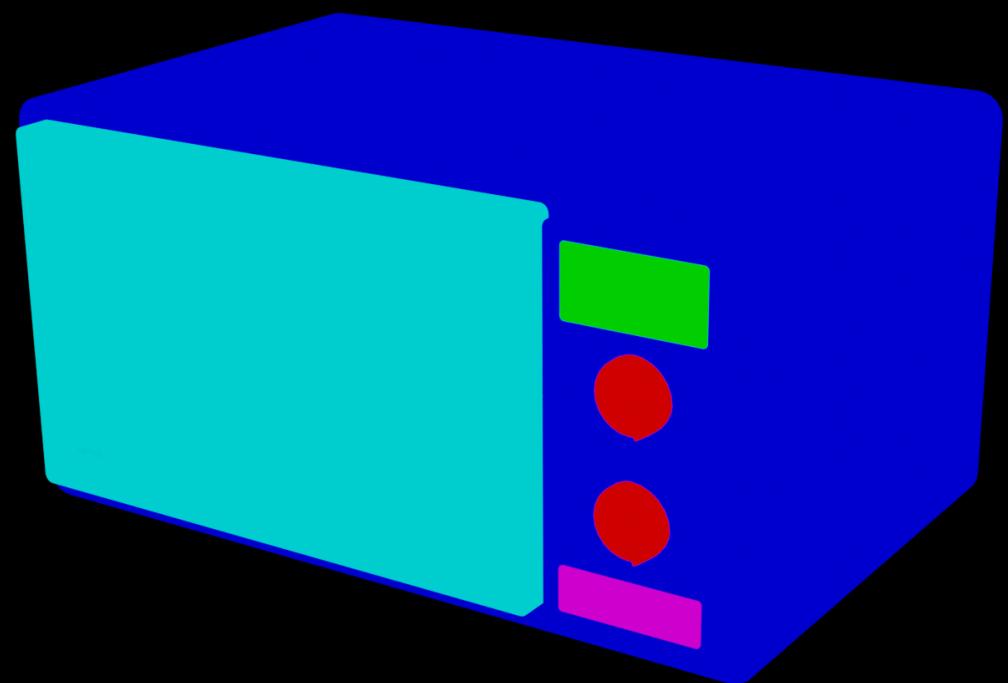

**Robotics control**  
**Adapt behavior**

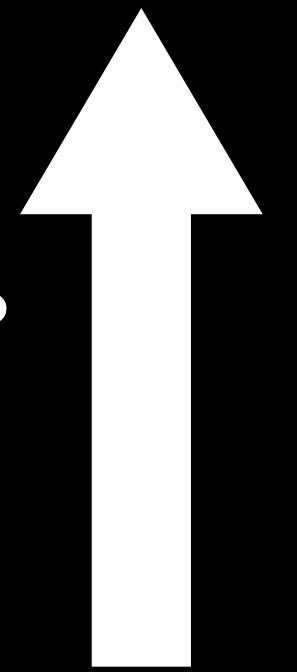

**Perceive information**  
**Computer vision**

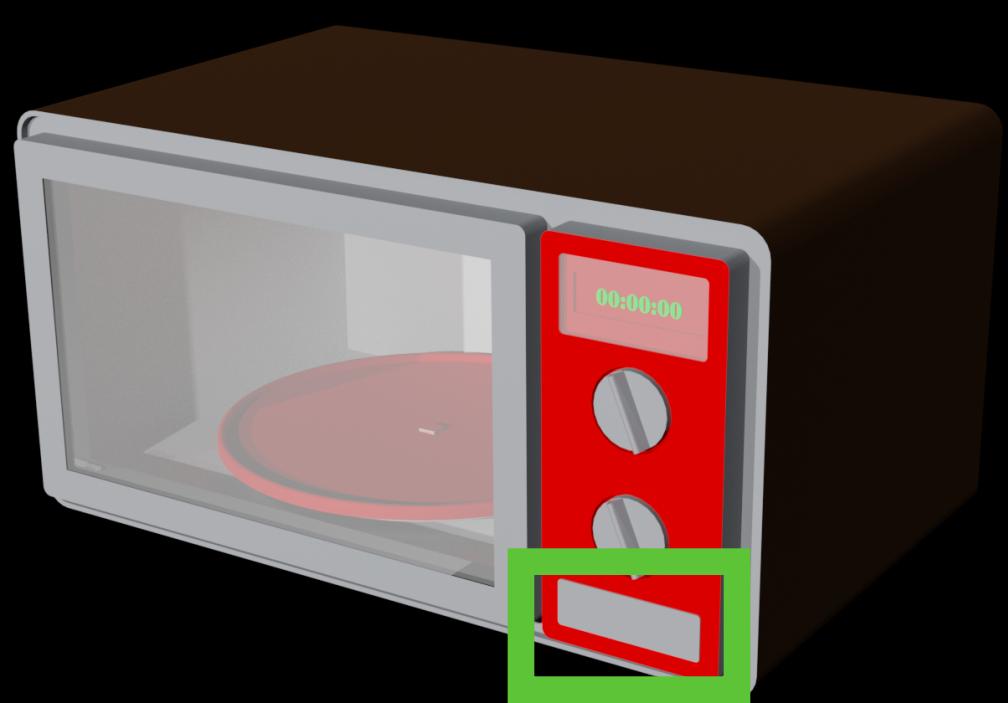

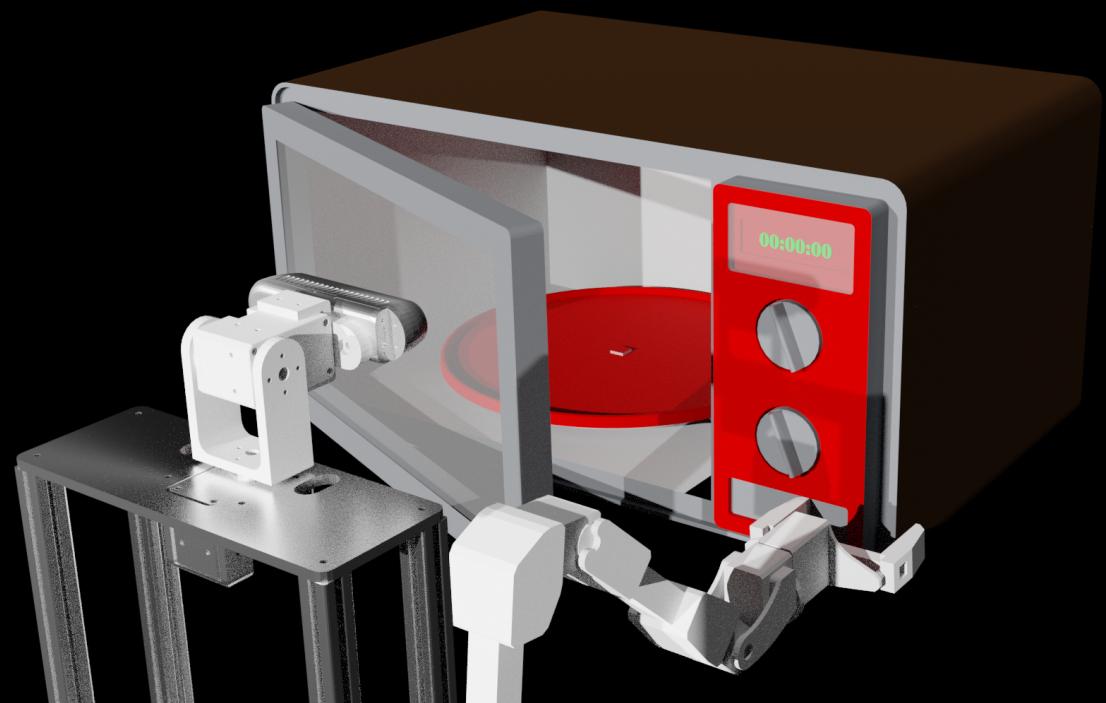

**Active perception?**

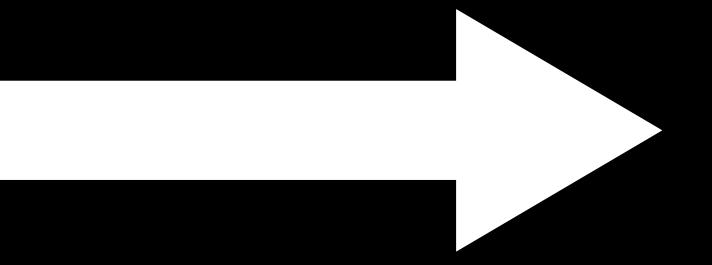

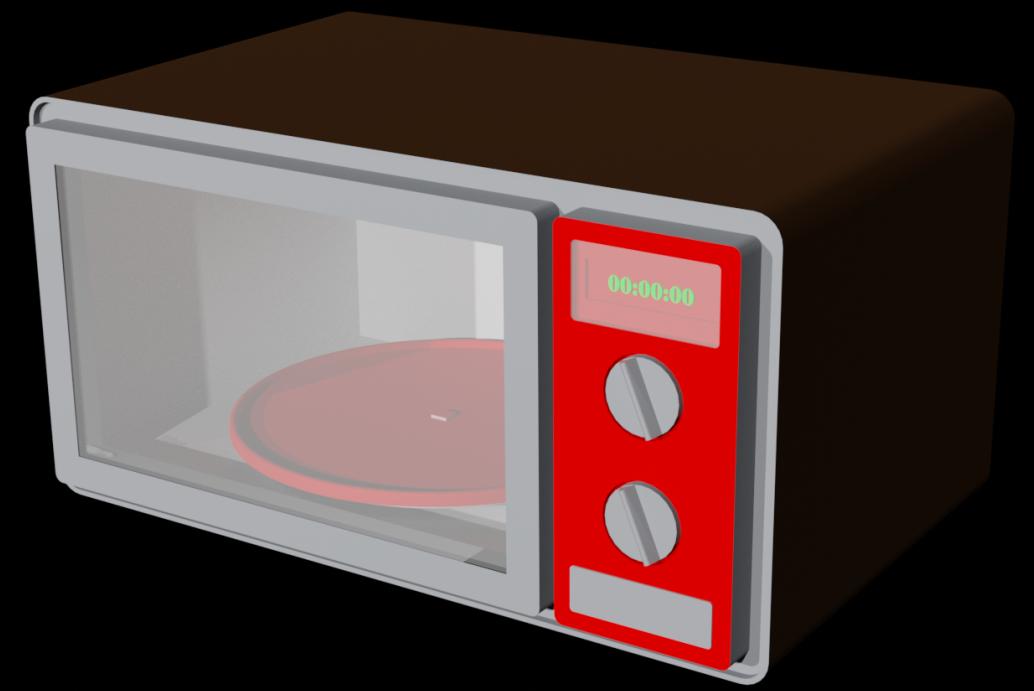

**Planning?**

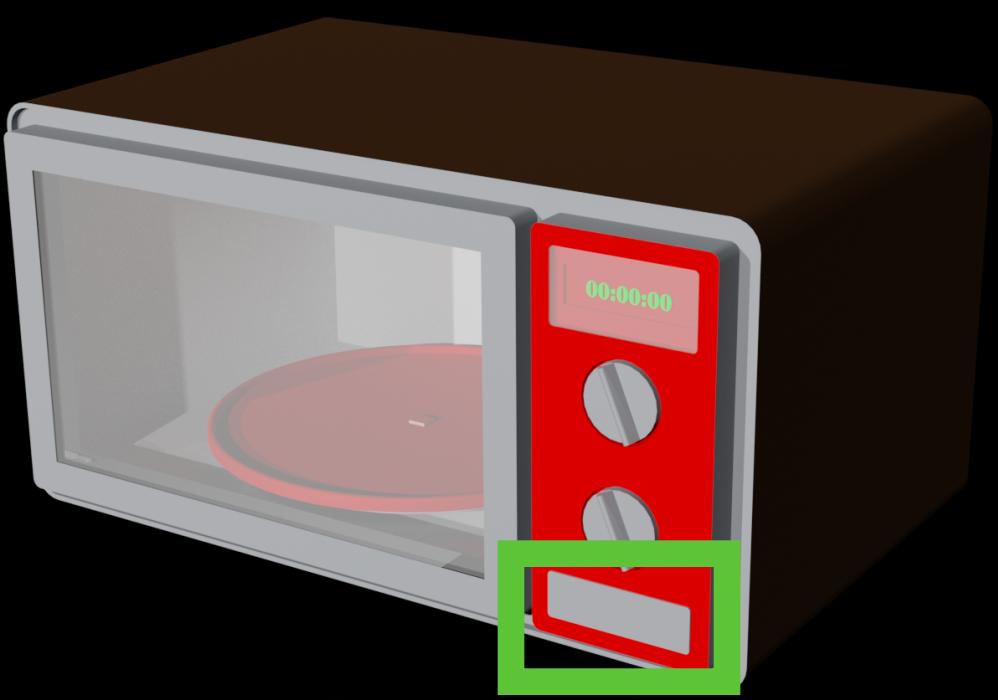

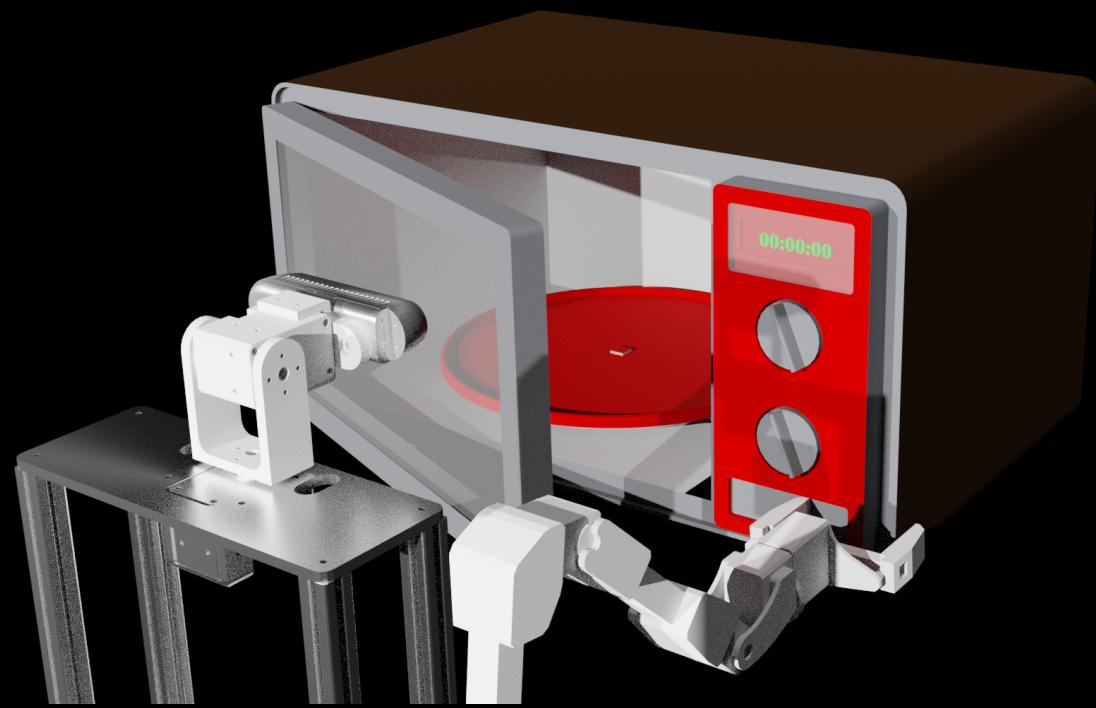

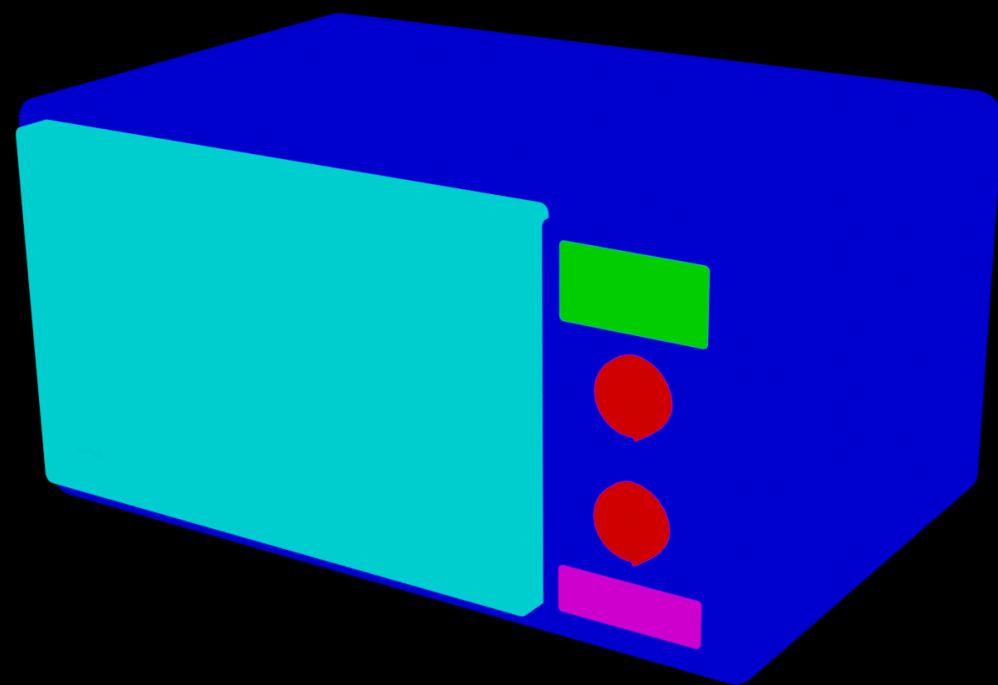

**Robotics control**

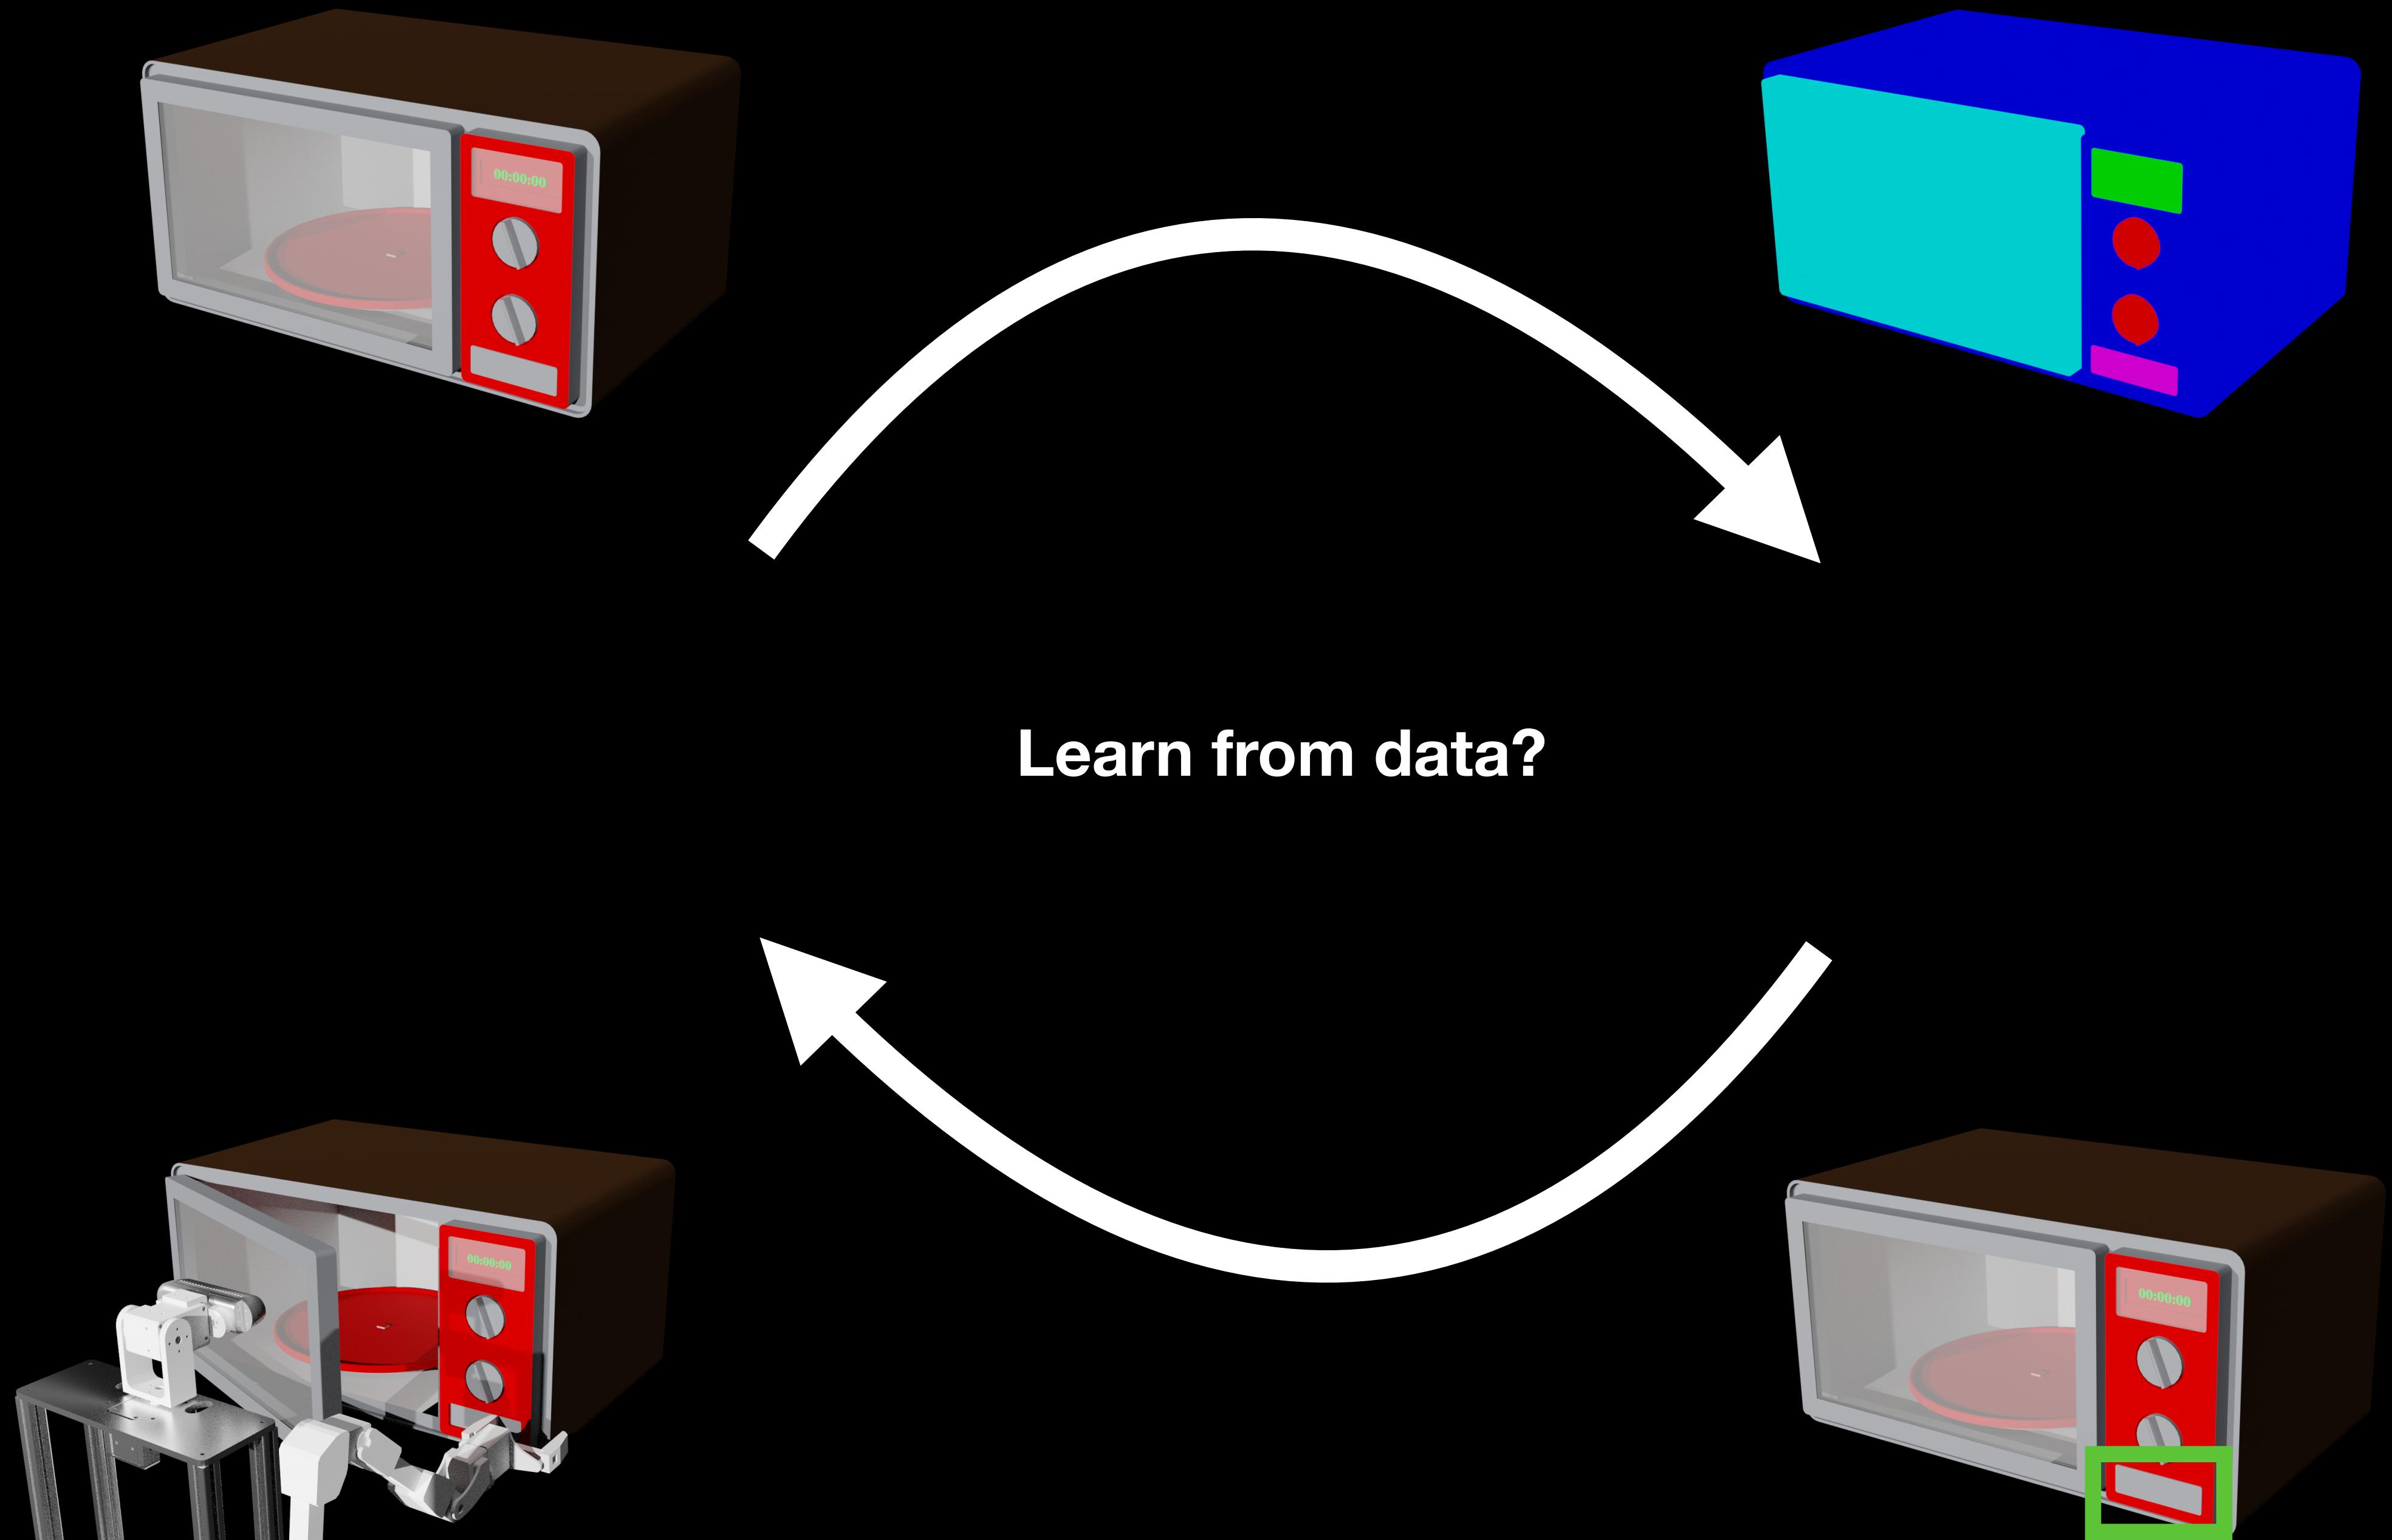

**Adapt behavior**

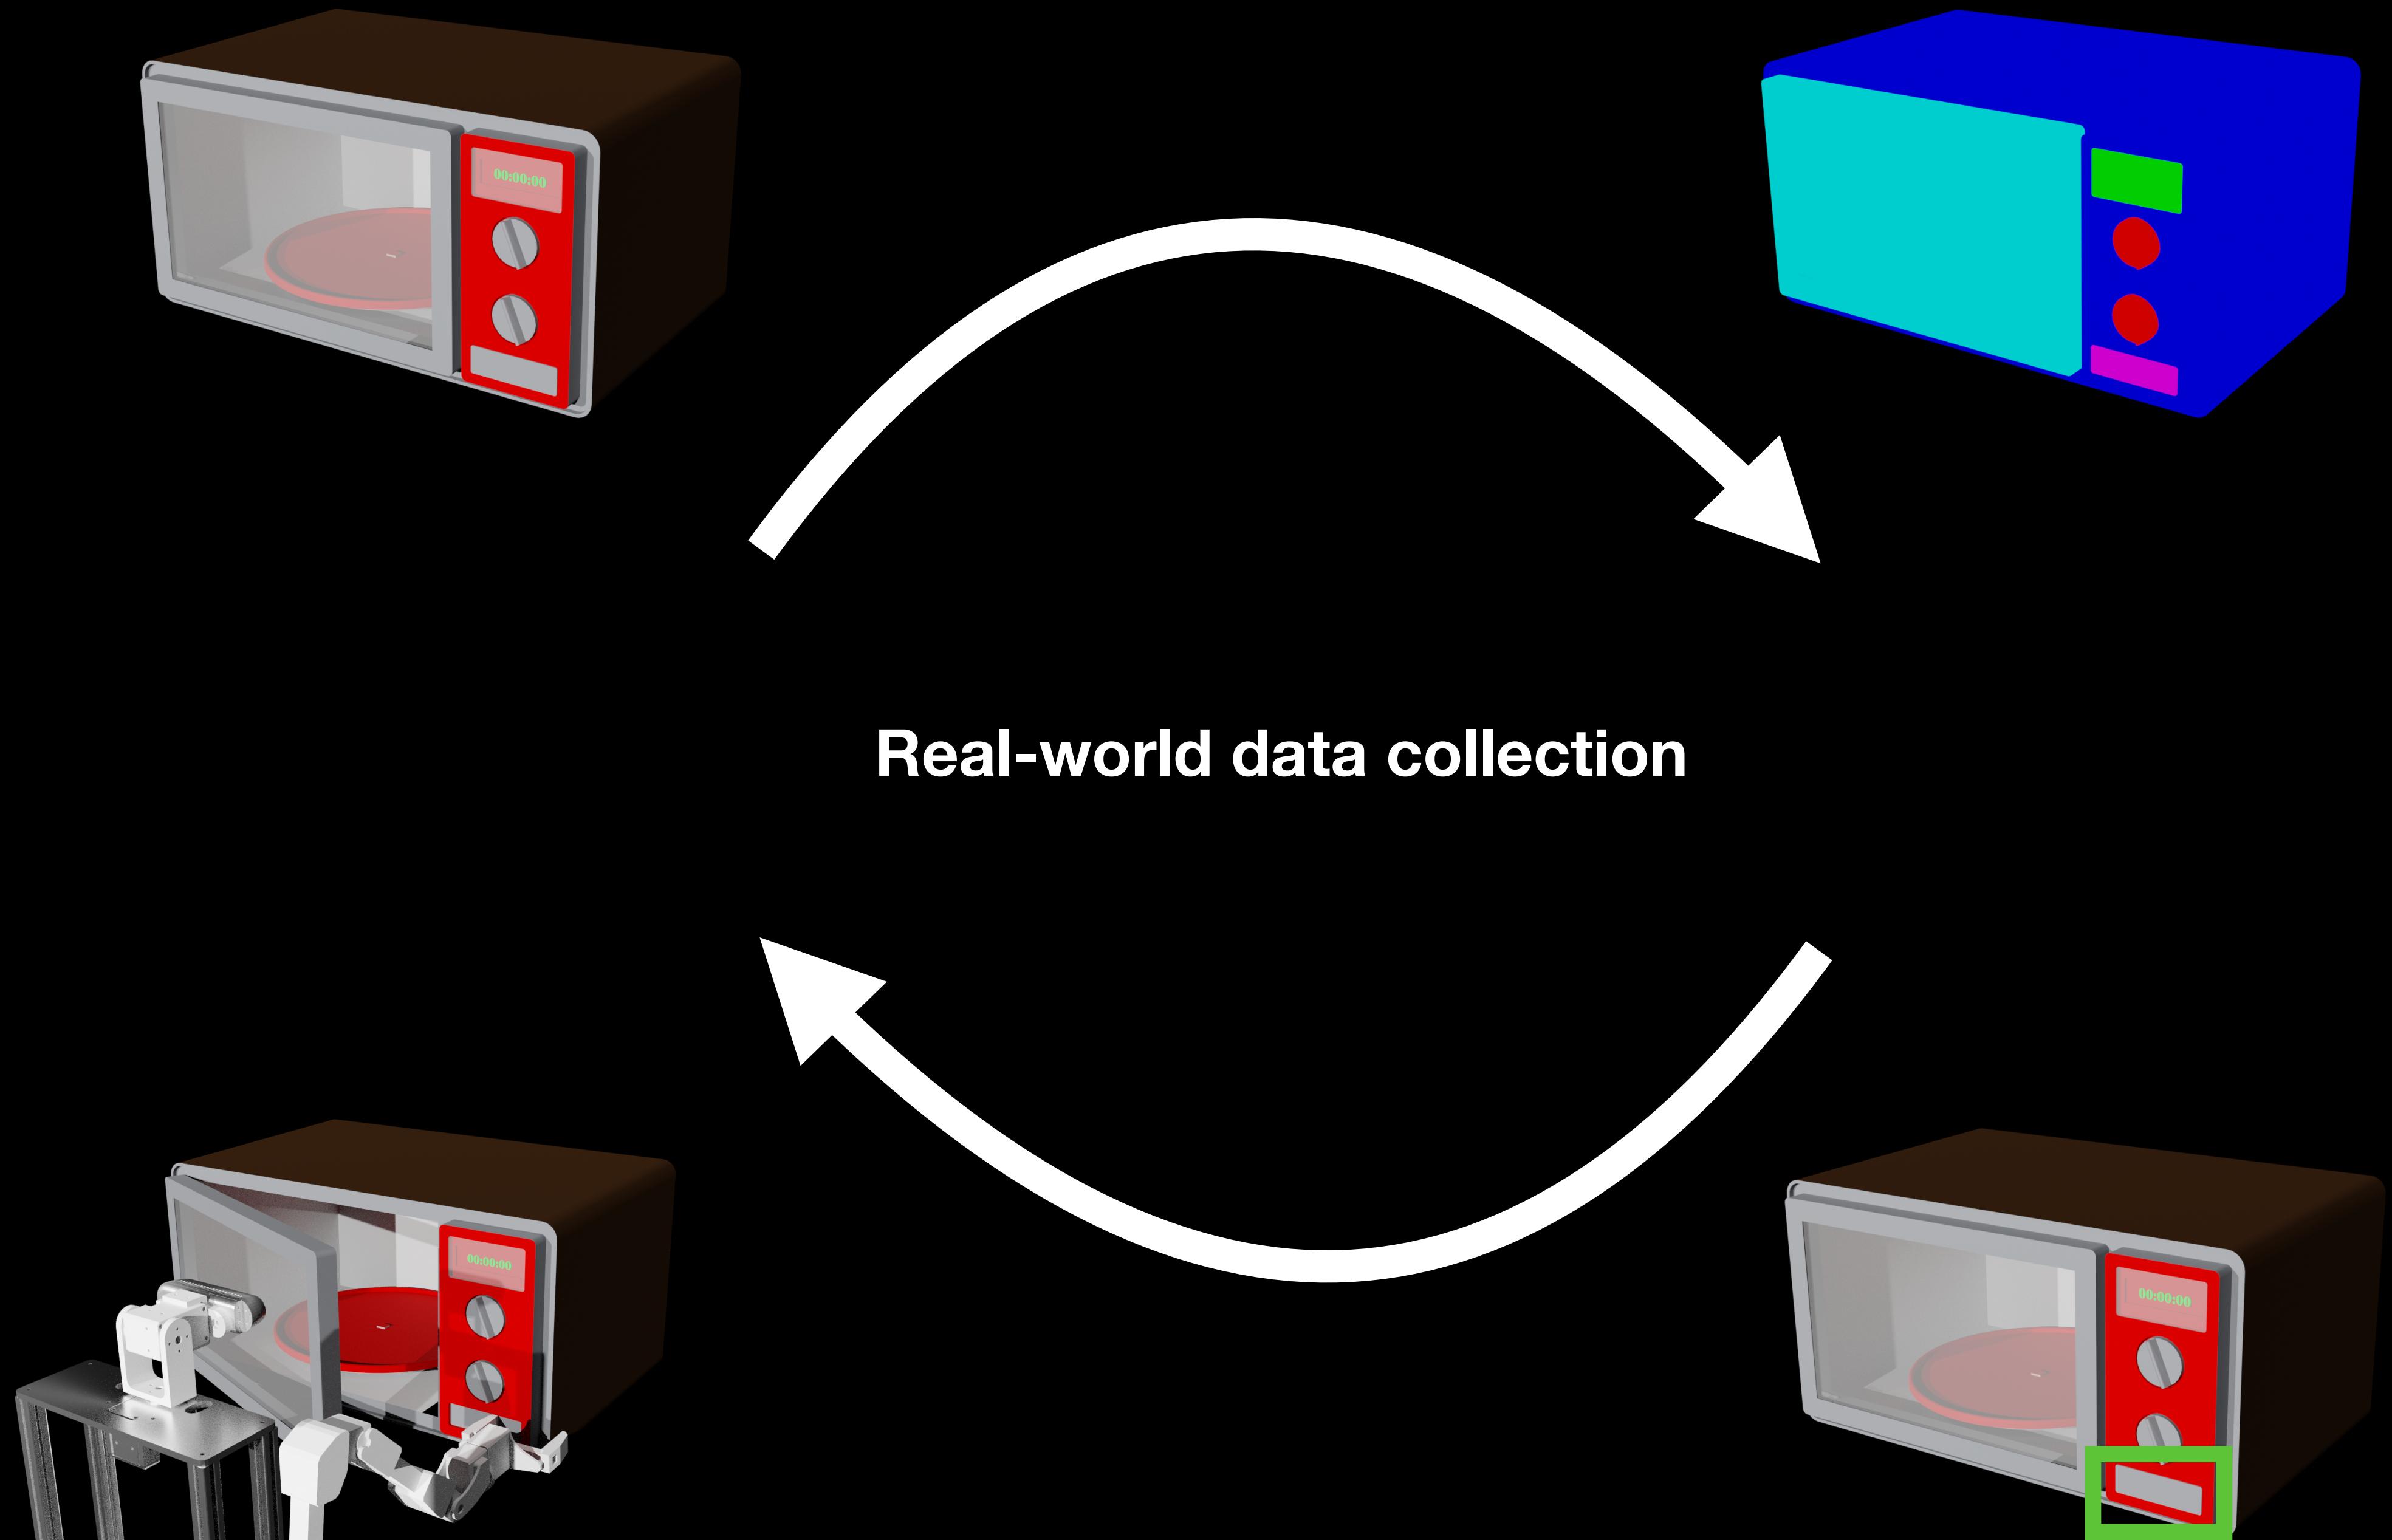

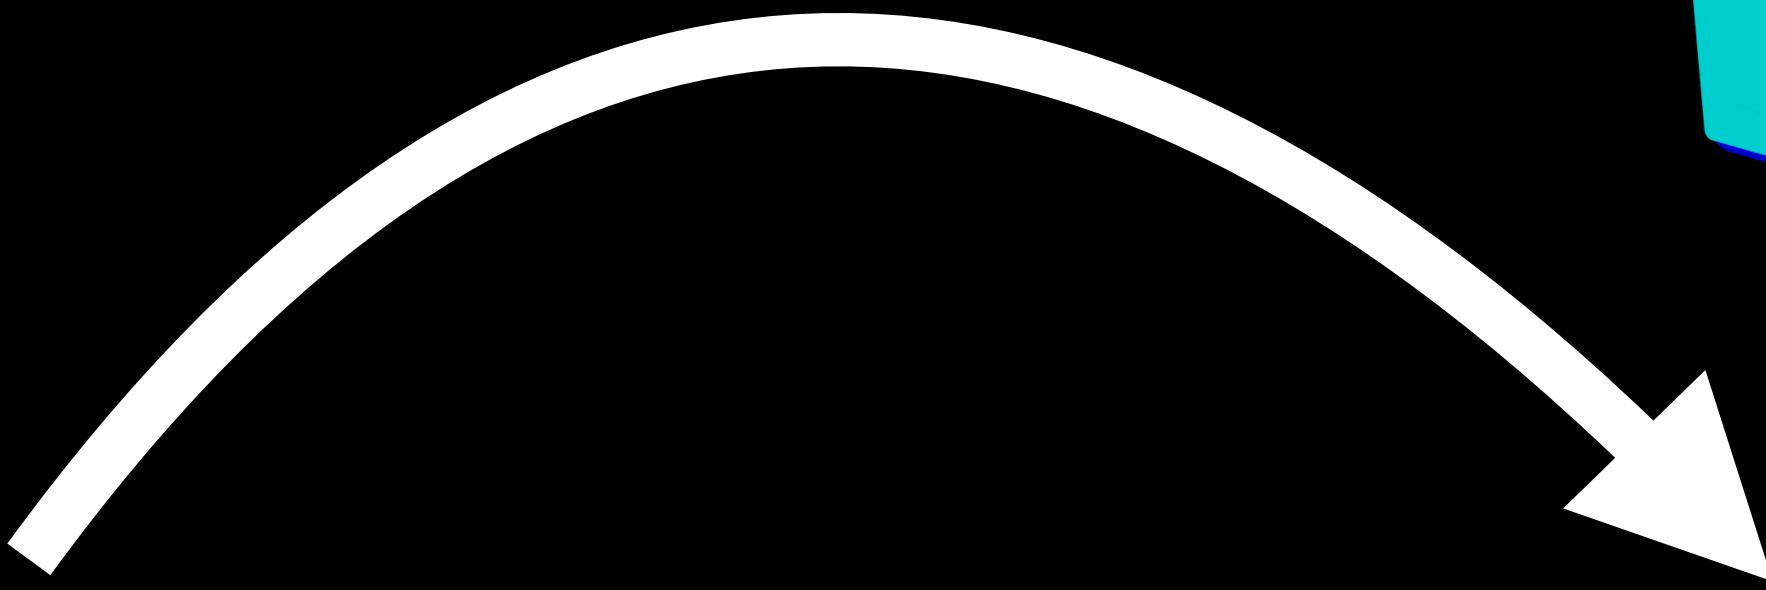

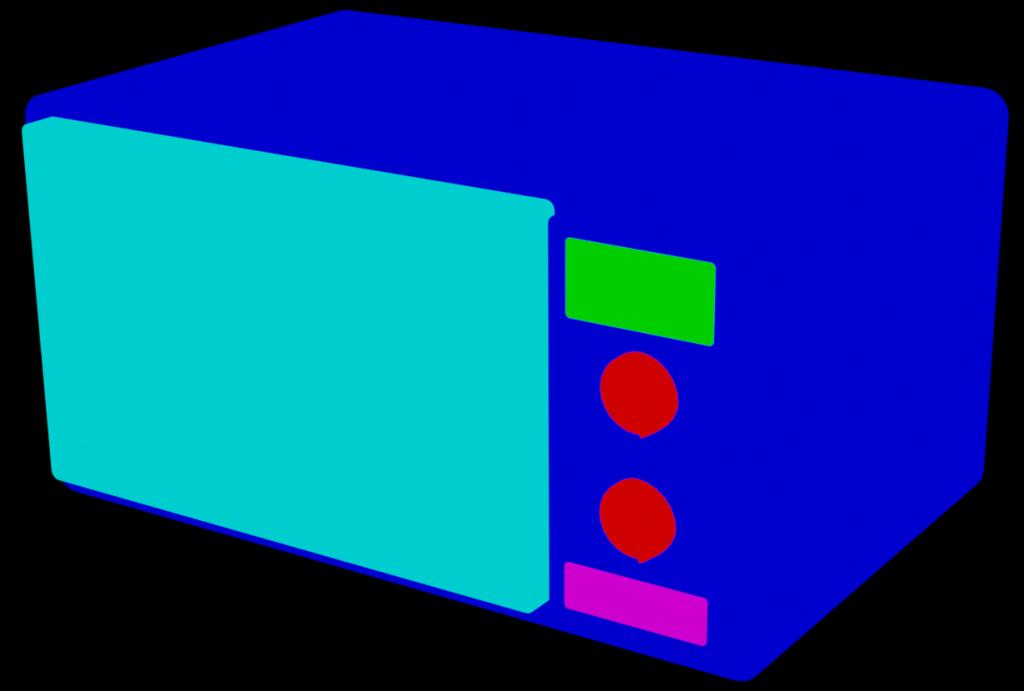

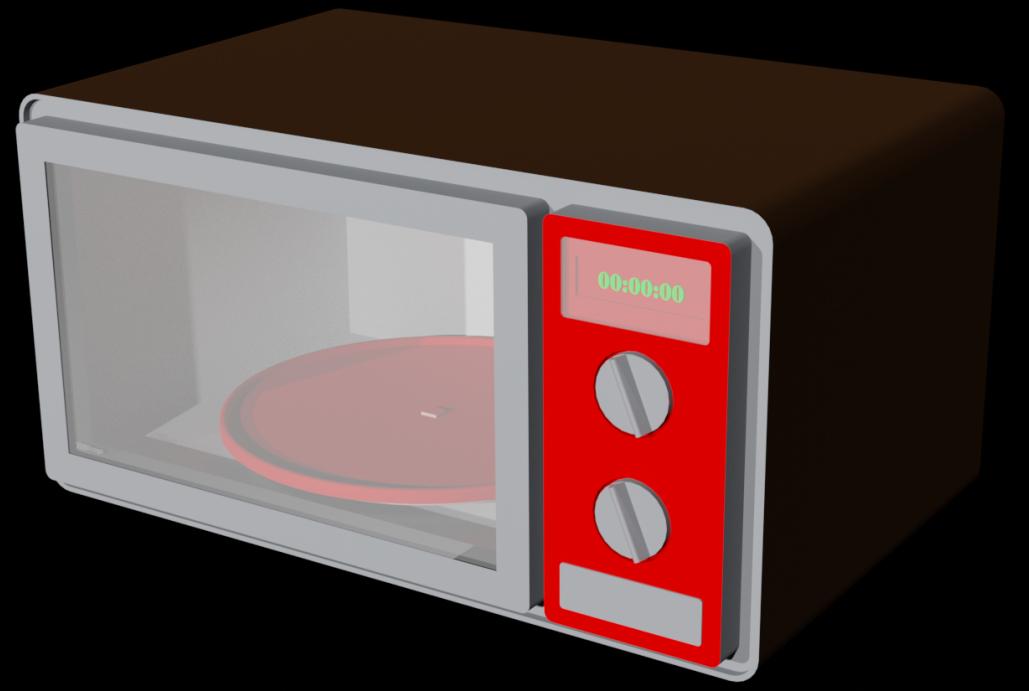

Data driven approaches

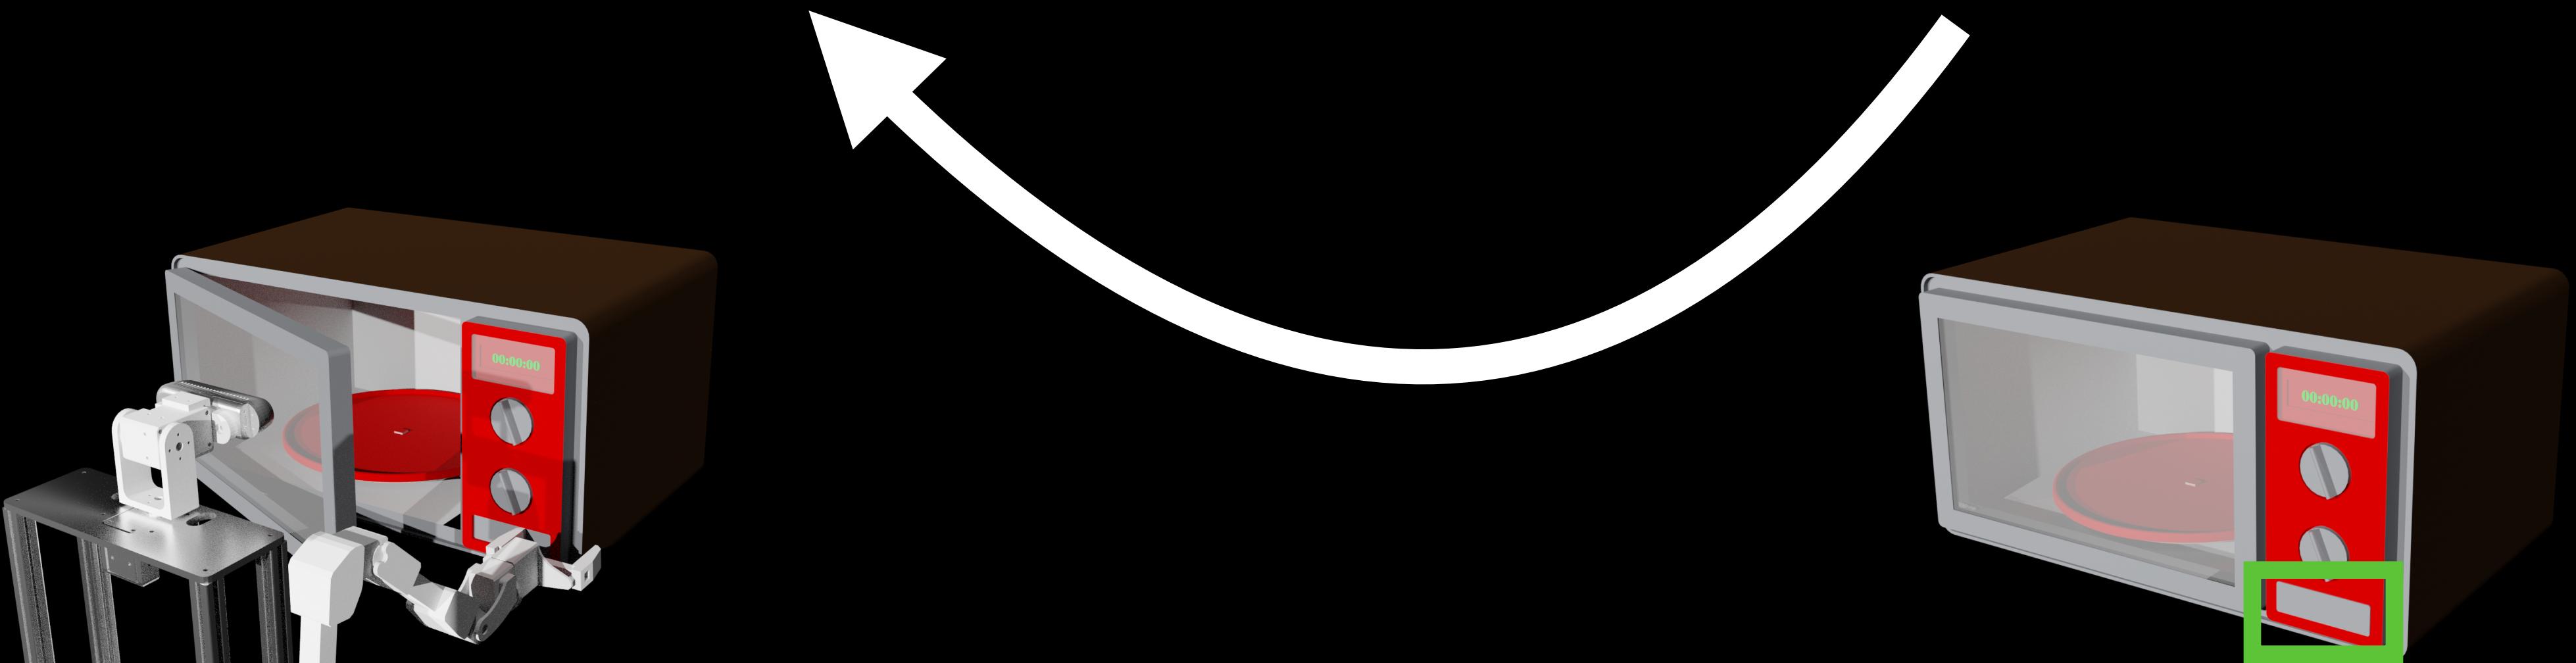

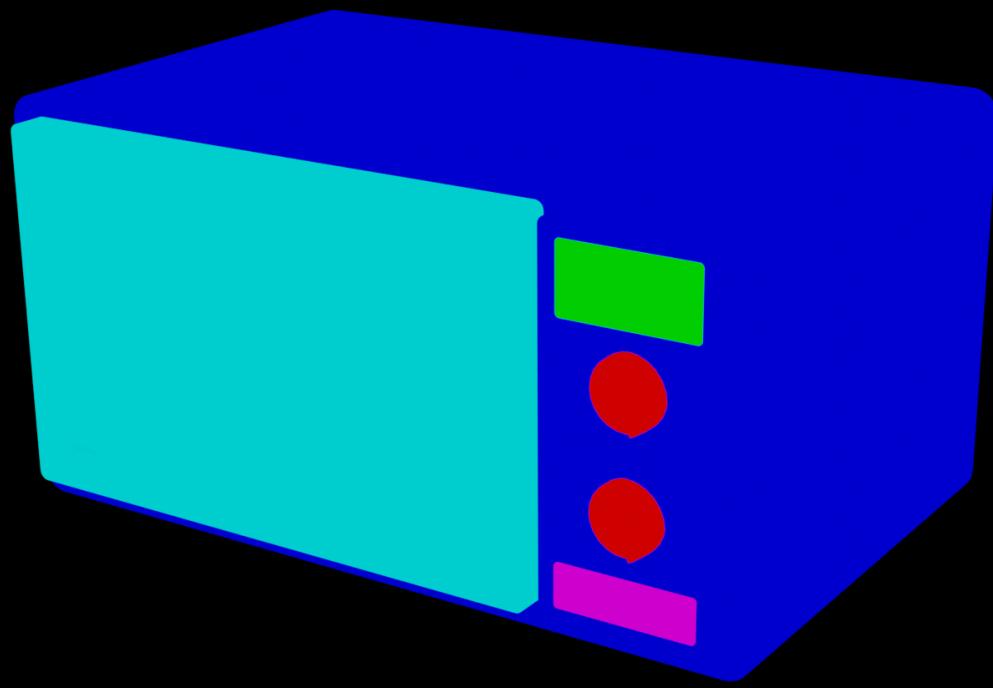

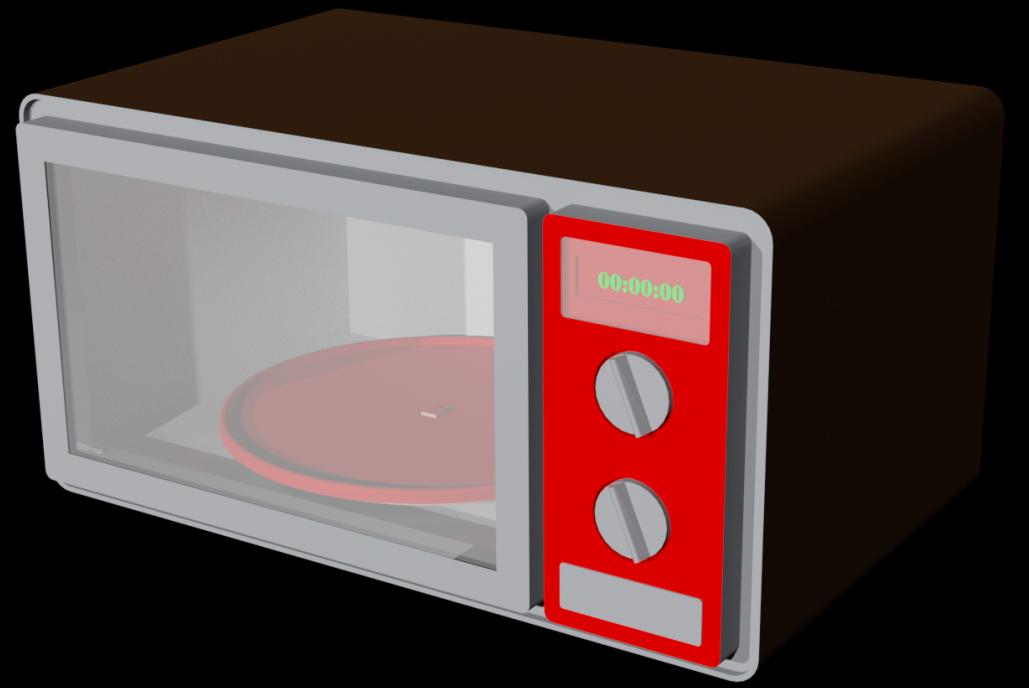

**Reinforcement Learning?  
Manual data collection?**

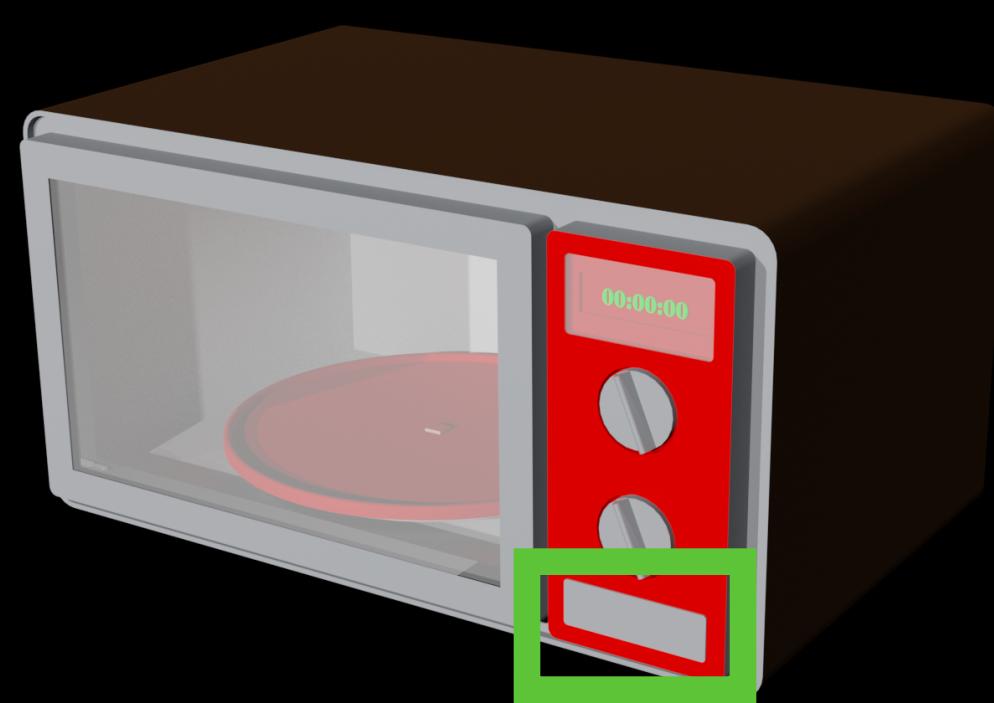

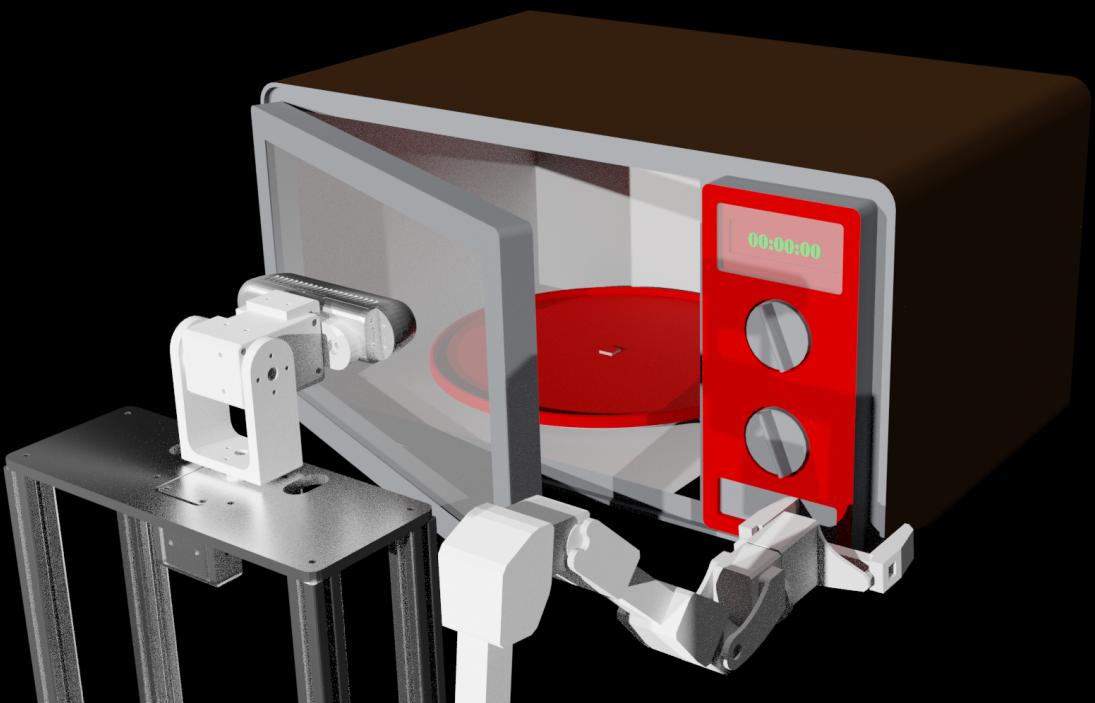

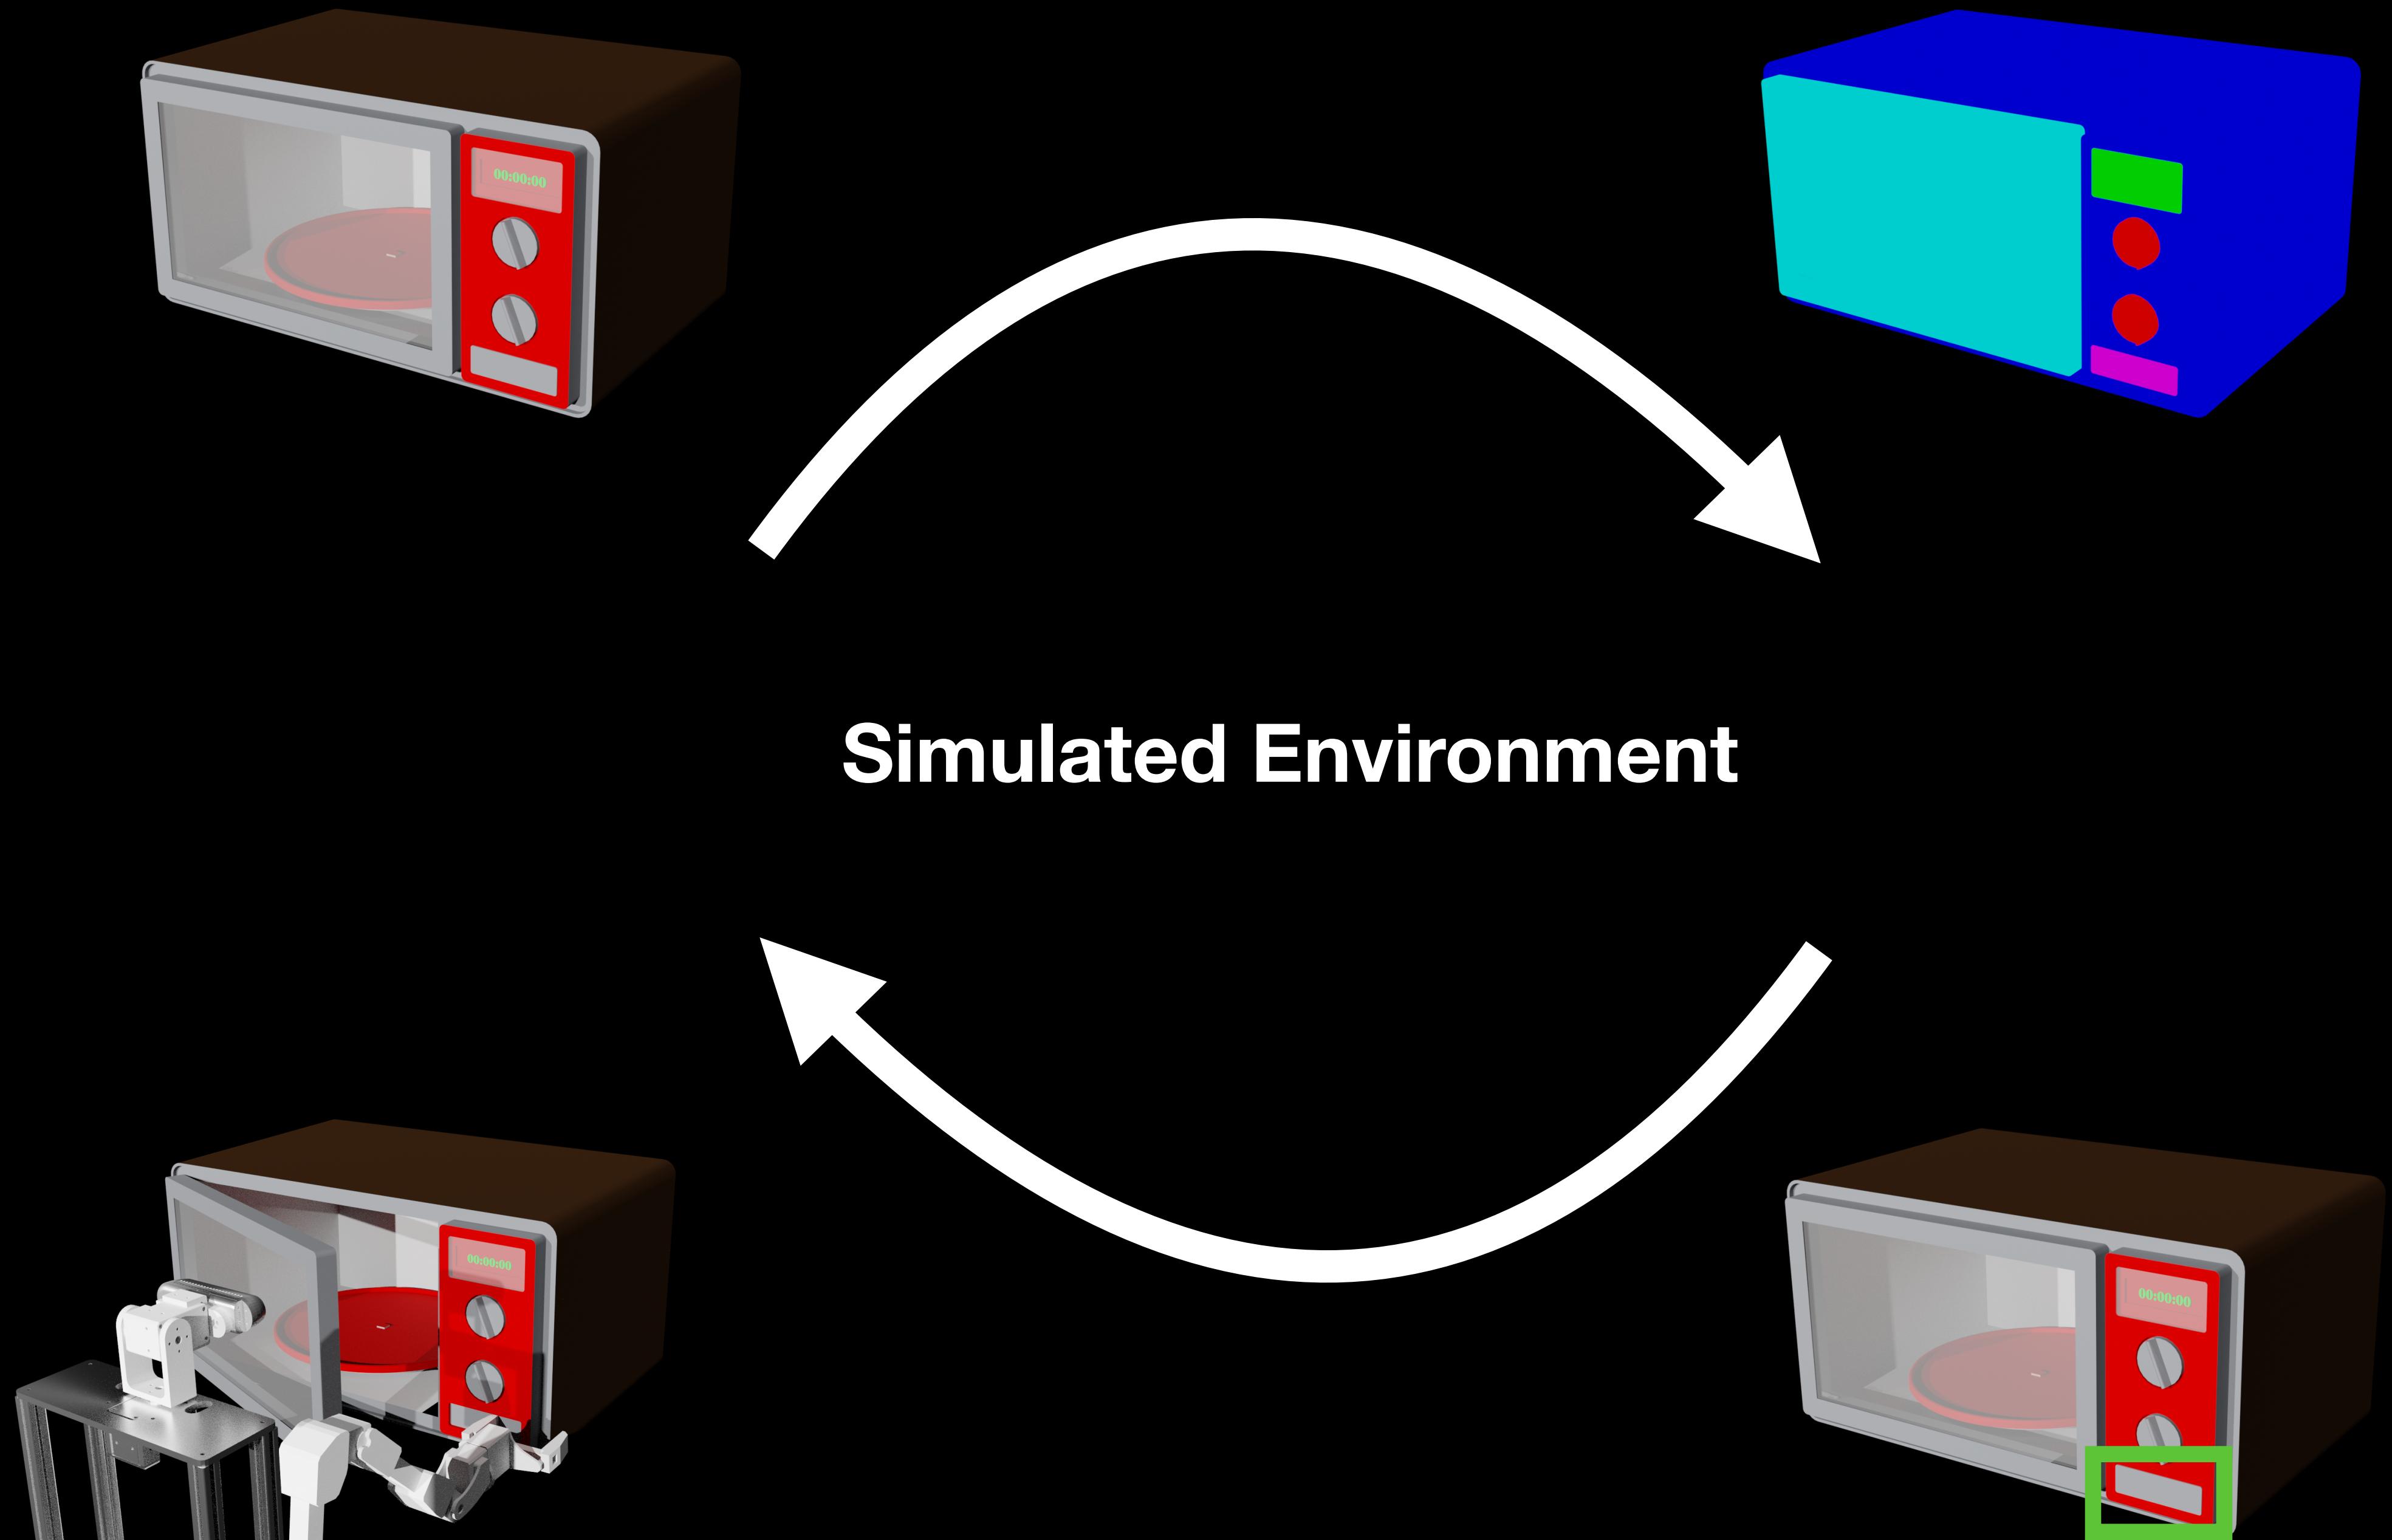

**Reinforcement learning?**

- 1. Expensive hardware**
- 2. Slow data collection**
- 3. Low sample efficiency**
- 4. Overfit to specific agent**

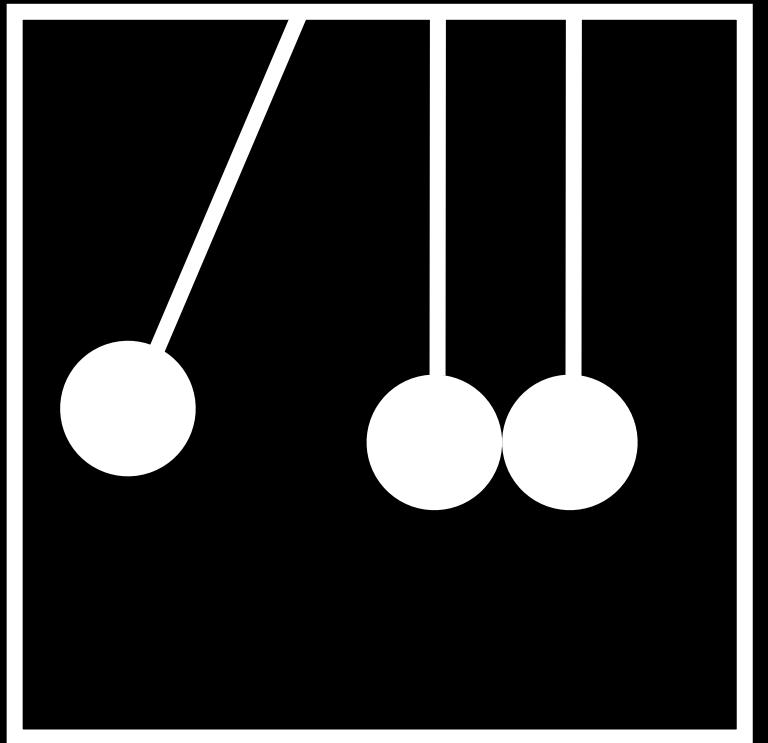

**Manual data collection?**

- 1. Unintuitive control**
- 2. May not be optimal**
- 3. Expertise**

# Future Plans/Applications

- Benchmark Platform
  - Vision tasks
  - Manipulation tasks
- Education Platform
  - Control Algorithms
  - Robot Learning

# Summary

- SAPIEN provides simulation and rendering for vision and manipulation.
- SAPIEN hosts a large-scale dataset for articulated objects.
- SAPIEN is open source.
- pip install sapien

<https://sapien.ucsd.edu>
